Rules for Chart Eligibility

August 2009

INTRODUCTION

The following Chart Rules exist to determine eligibility for entry into the Official UK Charts. The aim of the Rules is to protect the integrity of the Charts and to ensure that they are an accurate reflection of the popularity of each recording by reference to genuine sales.

The Rules apply equally to all companies issuing and/or distributing recordings. They set out the conditions on which a record will be eligible for inclusion in the Charts.

It should be noted that record companies and distributors remain free to package and market their products in any way they choose. However, releases which do not comply with the Rules will not be eligible to be included in the Chart.

The Chart Rules are issued by the Official Charts Company in conjunction with the Chart Supervisory Committee (CSC). The Official Charts Company is responsible for interpreting and applying the Chart Rules on a day-to-day basis under the supervision of the CSC. The Chart Director of the Official Charts Company may, at his or her discretion, refer any matter concerning the interpretation of the Chart Rules with respect to one or more recordings to the CSC, or a designated sub-committee of the CSC, for a decision. The decision of the CSC will be final.

Copies of the Terms of Reference of the CSC are available from the Official Charts Company on request.

1.0 Genuine Sales

1.1	
	All sales information used to compile the Chart must be recorded as a result of a genuine purchase by a genuine consumer.
	No record company, distributor, retailer, Artist or other party should act or encourage others to act in any way designed to distort, or which has the effect of distorting the Chart by achieving a higher or lower Chart position for a record than it would otherwise achieve.
	Actions which will be considered a breach of these rules include:
	<ul style="list-style-type: none">a) promoting the sale of any album by supplying a dealer with records by another artist free of charge or upon terms more favourable than would be the case but for that promotion;b) purchasing albums or causing albums to be purchased other than as a genuine consumer purchase;c) multiple purchases of albums on behalf of other persons,d) interference with the operation of sales recording machines or other equipment or computer software used to compile the Charts or collect or collate its information or in any other way being a party to the submission of false or inaccurate data to the Chart compiler;e) offering money or other benefits to a dealer contingent upon an album entering any of the Charts or attaining a minimum chart position;f) procuring the sale of an album in conjunction with a non-related or excessive gift, ie which gives the consumer a product, voucher or benefit or anything else which is either unrelated to the album concerned or of a value in excess of the value of the record without that gift (value means normal retail price), where it is not an album and merchandise package as outlined in section 8.0.g) any other activity intended unfairly to influence Chart positions.
	Where the Official Charts Company has reason to believe that an album is the subject of any of the above types of activity, it will, at its discretion, either remove identifiable irregular sales transactions from the data used to compile the Chart, or exclude the record from the Chart with immediate effect.
	The Official Charts Company's nominated chart compiler will ensure the accuracy and completeness of any sales information provided to it by a retail outlet in the sample to the extent it is possible to do so using Good Industry Practice. Where the nominated chart compiler has reason to believe that the inclusion of sales from a retail outlet or a number of retail outlets maybe inaccurate, misleading or incomplete and run contrary to the guidelines expected by a skilled and experienced market research firm, then the store(s) in question will be excluded from the sample to avoid potential distortion.
	If an album is excluded from the Chart, the Official Charts Company will inform the record company, distributor, ERA and the BPI in writing on the first working day after the exclusion takes effect. If unusual or irregular sales transactions cause the Official Charts Company to remove data from the Chart sample, the Official Charts Company will inform the Secretariat of the BPI and/or ERA, as appropriate, on the first working day after the data is removed.

2.0 Codes of Conduct

2.1	
	These rules are additional to the codes of conduct operated by the BPI/ERA or other trade or professional association.

<ul style="list-style-type: none">• Digital Album Bundle <p>Permanent Digital Download</p>	<p>Unlimited digital album formats may be combined for chart placing providing they adhere to all chart rules</p>

4.0 Combining of Sales

4.1	Alternative Album Formats (Deluxe, Re-Issues)
	<p>Sales of alternative versions of an album where the alternative version features additional audio and / or audio visual material to the standard album version, will be combined provided:</p> <ul style="list-style-type: none"> • The alternative format contains 100% of the audio tracks as featured on the standard version (See Appendix 1 Figure 1). • The additional material on the alternative format has not been previously available for purchase in its entirety as a separate product <p>If the additional tracks are released as a separate product, sales of an album cannot be combined with those of the original format. This is applicable even if the album contains mixes/live/extended versions of songs on the original format.</p>
4.2	Alternative Album Formats featuring less than 100% of material on Standard Album
	Alternative formats not featuring 100% of the audio tracks from the standard version of the album may be combined providing it meets 80% crossover with standard album format. (See Appendix 1 Figure 3).
4.3	CD/DVD and Deluxe DMD Formats featuring less than 100% of material on Standard Album
	CD/DVD or DMD album versions not featuring 100% of the audio tracks from the standard version of the album can be combined provided 80% of the audio tracks from the standard version of the album appear on the CD/DVD or DMD format. (See Appendix 1 Figure 4).
4.4	LPs
	Sales of vinyl formats will be combined with those of CD formats provided that 80% of the tracks featured on the vinyl format appear on the standard CD format. (See Appendix 1 Figure 2).
4.5	Remix and Live Albums
	Sales of remix or live albums will not be combined with sales of the original studio version.
4.6	Digital Albums
	Sales of digital albums will be eligible for the combined chart from release. A physical release is not required in order for digital album to chart.
4.7	Standalone DVD Albums
	<p>An album may be released on a DVD format and its sales combined with other format variants, provided there is a chart eligible CD of the same album on general release bearing the same title as the DVD format.</p> <p>In order for the DVD album to be combined 80% of tracks on one of the available CD formats should appear on the DVD format. (See Appendix 1 Figure 4).</p>
4.8	Import Albums
	<p>When they contain at least 80% of the tracks on the standard domestic format, imports are considered to be alternatives to the standard UK versions and their sales are added accordingly. If an import differs in content or packaging from a UK release, it counts as a separate format. (See Appendix 1, Figure 4)</p> <p>An imported record is eligible for a chart position in its own right if there is no equivalent UK release.</p>
4.9	Multi Format Packages & Box Sets
	<p>Multiple pack albums or Box Sets featuring different album titles are eligible for the chart in their own right. They will not be combined with the sales of one of their constituent items.</p> <p>Multiple format albums or Box Sets featuring different formats of the same album (including physical formats packaged with a code or alternative mechanic offering a digital copy of album) are eligible to be combined with standard version of the same album. Multi format albums or Box Sets constitute a single sale.</p> <p>Note: A minimum 20% uplift to standard CD dealer price is required for multi format albums.</p>

4.10	Simultaneous Availability from Distributors
	When the same record (or combinable variant) is available on UK release from two different companies, sales will not be combined except at the request of both companies.
4.11	Catalogue Numbers and Barcodes
	All physical formats should carry a unique catalogue number, and a unique barcode should relate to the catalogue number. This is applicable even when identical recordings are issued in different packaging, including colour variations of CD's, vinyl and DMD's.
	All physical formats of an album release should be reported to Millward Brown. <i>(For Millward Brown contact details please see contacts section)</i>
	Note: Physical products without a barcode will not have their sales tracked for chart purposes.
4.12	ISRCs and Digital Barcodes
	All digital album bundles must carry a unique identifier (i.e. digital barcode) and ISRC codes for individual tracks (including videos). Barcodes must be reported to PPL Repertoire Database together with the barcode of the physical product it is to be linked to. <i>(For contact details please see contacts section)</i>
	Note: Digital tracks without an ISRC or digital albums without a barcode will not have their sales tracked for chart purposes.

5.0 Exclusions

5.1	Budget Albums
	Budget albums are excluded from all published Album Charts, except Classical Album Charts.
5.2	Exclusion By Request
	A UK rights owner/licensee may request the Official Charts Company to exclude an album from the Charts where the record is not generally available from the owner's normal distributor (for example - deleted titles, or pre-release sales caused by distribution leaks).
	The Official Charts Company may at its absolute discretion exclude an album from the Chart in such circumstances. An album that otherwise meets all eligibility criteria will not be excluded from the charts.
5.3	Promotional Products
	Any promotional (free to consumer) physical product or digital product will not be eligible for inclusion in the chart.

6.0 Competitions, Vouchers and Retailer Promotions

6.1	Competitions / Vouchers Continued
	Competition inserts or entry may not be included in any physical or digital album release. (also see 6.3 retail promotions)
	A competition featured on or within the packaging of any album release, including but not limited to the 'enhanced section', microsite or any other chart eligible software application or program will render the format ineligible for inclusion in the charts.
	A release incorporating an exclusive voucher giving discounts on other goods or services, or exclusive access to such goods and services-are considered free gifts and are ineligible for inclusion in the chart.
6.2	Database Card or Data Capture Incentive
	Standard generic company/record label reply cards or data capture mechanic that offer a small incentive in exchange for consumer details do not make a product ineligible for the chart. The card/incentive should not be advertised externally on the packaging.

6.3	Retailer Promotions
	Any incentive in the form of a retailer sponsored free gift or discount, to purchase one or more chart eligible albums, will not disqualify sales of records from contributing to the Chart position provided that the records, and the gifts or discount offered, comply with all other chart eligibility rules. If a retailer promotion does not conform with this, sales of the record concerned will be excluded from the chart.
	Retailer promotions on albums are not limited to the free gifts as described in format breakdowns (posters, postcards and booklets) provided that the Official Charts Company receives written confirmation from the retailer that it is sponsoring the promotion.
	If a retailer is running a competition it may not be dependent on the purchase of specific albums.
	In the case of digital formats of a release consumers should not be automatically entered into a competition upon purchase.

7.0 Pre Order Incentives

7.0	Pre Order Incentives
	No competition incentive may be offered on a digital and/or physical pre order.
	One digital track is permitted as instant gratification for an album pre order. A retailer offering this pre order incentive must report the instant gratification track to OCC as a promotional download.
	Where a physical album is available for pre-order access to a pre release stream or timed out download of all or some of the album tracks will be chart eligible.
	A free permanent download of an album given to consumer as a pre order incentive will render physical album ineligible for the chart.
	Retailers may conduct pre order incentives on physical or digital products providing they comply with all other chart rules

8.0 Album & Merchandise Packages

8.0	Album & Merchandise Packages
	Record companies are free to package full and mid price album formats with added value items. These packages are subject to increased minimum dealer price against the standard version of an album.
	For low value items such as wristbands, badges, patches, key ring, or similar the product will be subject to a minimum 20% uplift above the dealer price of the full price standard album format.
	For high value items such as, t-shirts or similar the product will be subject to a minimum 80% uplift above the dealer price of the full price standard album format.
	Added value items must be packaged with album and must be clearly related to the artist or artist branded. In the case of non artist albums merchandise may be label or brand related.
	The album and merchandise package must carry a unique barcode to that of the standard (or any other) version of the album.
	Tickets for live events and access 'experiences' e.g. meet and greet are not eligible to be packaged within Album & Merchandise packages
	Note: Record companies must obtain written approval for <u>ALL</u> album and merchandise packages prior to production to ensure chart eligibility.

“CD or ENHANCED CD”

Alternative versions of albums that are to be combined with the standard version of the album that don't have 100% of tracklisting will be subject to 80% crossover rule. (See Section 4.0 and Appendix 1 for further information)
